

Ikuü Contractor Box

CB001

Ikuü Contractor Box includes 4 products: Wi-Fi AC fan controller, Zigbee double light switch, Zigbee double power point, Zigbee home hub. Key Features:

- **Wi-Fi AC fan controller:** This product is suited for most AC ceiling fans and allows you to select a fan of your choice (existing or new) that suits the style your customer is looking for while also delivering the convenience of smart control via Mercator Ikuü
- **Zigbee double light switch:** touch capacitive backlit switches provide a clean aesthetic and deep smart functionality – use with any compatible load to control non-smart lights and appliances via the wall switch, your phone, or voice assistants
- **Zigbee double power point:** the integrated power meter means you can track in the moment, and over time, how much power you are using. Ideal for controlling non-smart products such as lamps, heaters, and fans via the outlet switch, your phone, or voice assistants
- **Zigbee home hub:** connect to 50 Mercator Ikuü Zigbee products without having to worry about overloading your Wi-Fi network. This hub is Zigbee 3.0 compliant for additional flexibility
